

2014 SEC Football Media Days Florida Player Quotes Monday, July 14, 2014

Florida Quarterback Jeff Driskel

On What New Offensive Coordinator Kurt Roper's System Looks Like:

"It's kind of the polar opposite of what we're used to over the past few years, before we were kind of putting our focus on time of possession and controlling the ball and that really worked for us in 2012; we limited turnovers and played great defense. But I think the game is just moving towards having to score points and trying to get as many plays in as possible, which is Coach Roper's mindset. He's a positive coach and puts players in positions to be successful so we're lucky to have Coach Roper and we're excited to get going in camp."

On Confidence With Receiving Corps And New Tight End Jake McGee:

"Our receivers are led by Quinton Dunbar, he's a fifth-year senior, very experienced, very smart guy who picked up the offense really fast. We have a lot of young receivers who haven't gotten much playing time, either due to immaturity or just being buried on the depth chart, but that doesn't mean they aren't talented. I think our guys had a really good spring, I saw a lot of guys making big-time plays that I would really like them to make for me. I think a lot of people are going to hear about Demarcus Robinson, he's going to be a sophomore out of Georgia; he's really talented and has all the skills in the world. Jake McGee is a huge add for us, he's actually my roommate for the summer, he's a great person, he's been around college football so he knows what to expect. He's just a great addition to our team."

On individual expectations for this season:

"I don't think you really want to put numbers expectations on yourself, you just want to go in and give your team a chance to win. Obviously we're going to need more production from the offense to do that, and I think based off of the spring that we'll be able to do that. Of the few games I played in last year, just cut down on some turnovers and make better decisions in the red zone."
