

2014 SEC Football Media Days Auburn Player Quotes Monday, July 14, 2014

Auburn Defensive Tackle Gabe Wright

On winning games in the last seconds and how it's inspiring for this year.

Quote: "I really believe that it is never a goal to win by seconds, the best goal would be a blow out but we will take them as they come. I've stressed this before, winning or losing you are always going to take something away from it. We did lose our last game of the season and we will take what we learned and use it as motivation for next season."

What was the biggest difference in the season last year, key to making a run.

"Honestly, player's confidence and our coach's confidence. Confidence is something that we did not lack last season."

On Arkansas 3-9 season and facing Arkansas this season.

"I know what 3-9 feels like...there is no bigger motivation than that. If you really have true athletes who give it their all; workouts, class, football, nothing else matters but those three things. We had high confidence and I am sure that is what's going on over there. They are going to come with that fire and it will be a good game."

On working out this spring and what position to play.

"I am a defensive tackle. This is honestly a discussion me and the coaches do not have a lot. Some injuries have occurred and when you are a player you have to stay ready and be prepared. This shows the confidence that me and my coaches have in me to be ready to do it. I do not second guess any of my coach's decisions. "
