

2014 SEC Football Media Days LSU Player Quotes Wednesday, July 16, 2014

Senior Running Back Terrence Magee

On quarterback battle:

“I think we are in a great situation at quarterback at LSU. We have a guy Anthony Jennings who has a little bit more experience than Brandon does. Throughout the summer I’ve seen both of them learning and taking tips from each other and both progressing very well and hopefully they’ll continue to progress through fall camp. As far as what we see as players in the offense they are making it a tough decision for Coach Cam and Coach Miles on who is going to be the starter for game one”.

On breaking in the new guy’s role for this season

“It’s going to be hard to replace guys like Zach Mettenburger, Jarvis, and Odell but we have a sign in our team room that says ‘Young guys be prepared to play early and play big roles.’ I think those guys understand that and as the seniors and leaders on the team we are doing a good job making sure they understand we are counting on them this year. I think they are doing a great job getting prepared throughout summer and going into fall camp and I think they are going to play big roles for us this year and step right in and fill the shoes of the guys who left”.

On the running backs and preparing for Wisconsin:

“It’s a big running back school and they always have a guy that totes the ball well. We are coming off of a bowl game where we played a team from their conference. People try to make a big deal about the SEC versus any other conference and to be honest those guys play football the same way we do, so I am very excited to be lining up against them and look forward to that match up.
