

2014 SEC Football Media Days Kentucky Player Quotes Thursday, July 17, 2014

Junior OL Jordan Swindle

On...What is considered a successful season this year.

"I feel like success for our team is going to a bowl game. That is my personal goal as a team for us. So I'm going to work my butt off trying to get us to a bowl game, and that will be a success for us."

On...the team's quarterback situation.

"I feel like having four quarterbacks that are in the running is actually kind of beneficial because say one quarterback already had the job, he might have the chance to slack off. Because there are four fighting for it, each of them has been working their butt off trying to make sure they are the starter. So it's kind of a good thing.

On...Freshman quarterback Drew Barker adjusting to college life and competing for the starting spot.

"I feel like he has progressed definitely. It's definitely a difficult transition from high school to college, especially if you leave early. I feel like he's handled it well. He performs at a high level, and he has a very good arm. I think it's a competition between all four and no one in particular.
