

2014 SEC Football Media Days Ole Miss Player Quotes Thursday, July 17, 2014

Senior DB Cody Prewitt

On being "All In"

"For me it's just total commitment. Our coaching staff expects us to do everything right on and off the field. They relate off the field directly to things on the field, like academics and doing the little things right off the field that's going to translate to doing the little things right on the field. When we are doing little things right on the field that's going to allow us to play at a really high speed and execute the way we are supposed to execute. When you hear 'all in,' to me it makes me think about just full commitment and to really be all and buy into what Coach Freeze and the rest of the coaching staff wants us to do. With that comes a lot of success."

On being All-SEC first team

"It's really humbling, been working 21 years bettering myself at football. Football is the only thing I truly love. To have other people thinking so highly of me, as to commemorate me, it's really humbling and really nice for people to admire you for just playing a game I love. At that the same time I don't want to disappoint anybody, I want to perform the way people want me to perform and that's going to take getting better every day in the classroom and the field."

On the Egg Bowl

"The Egg Bowl is one of the great rivalries in the league or in college football period. To win that is like putting a flagpole down in Mississippi for 365 days following that game. Last year was a tough game for both teams. They played their hearts out. they (Mississippi State) made a play here and there and we didn't and that's all it really is. It's execution and we look forward to this game all year, no matter whatever happens the rest of the season. It's the kind of game we will be thinking about during the offseason and that's the game that we carry into the season knowing we want to get there and really perform at a high level."
