

TIP OFF 23

Vanderbilt Commodores

Jordan Wright and Quentin Millora-Brown

Jordan Wright

What have the team worked on in the off season that you are excited for fans to see?

“Building up a report with each other, we have a lot of new guys, a lot of young guys and some transfers that came in. We have been building up that report with each other, building a bond, everybody getting used to each other and learning each other’s games. The foreign trip was the biggest thing for us. We got to spend 10 days together, 24 hours a day, the only time we didn’t see each other was when we went to bed. Having that time together, experiencing new things and playing other teams was really good for us.”

Quentin Millora-Brown

What role do you think you will play this season?

“I think my role is going to be someone who is constant. Always being consistent in what I do for the freshmen when they have their highs, when they have their lows. Just being a consistent every time on defense, knowing where I am supposed to be and helping them get to that level of consistency.”
