How competitive have practices been with a roster that bolsters so much experience?

“Practice has been very competitive every day. This team plays every possession like it’s the last possession, so I think our roster makeup is a good thing. We have a lot to add. It’s going to be great for our team.”

Jada Rice

How does the chemistry on your team feel with so many new pieces?

“We, as a team, and the staff, have really emphasized culture by doing things like reading books together, getting lessons out of those and doing things like taking a team retreat. We hang out all of the time as friends, not just as teammates.”
