

TIP OFF 23

Kentucky Wildcats

Jada Walker and Blair Green

Jada Walker

What do you think your role will be on the team this season?

“Definitely just a bigger leadership role. I’m constantly being told that even though I’m doing good, make sure that everyone else around you is on the same page and doing well, so we all can be better- not just me progressing, but the whole team.”

Blair Green

How has it been getting your groove back in practice and just to be back on the court?

“Its been a lot. I think I give myself a harder time than I need to a lot of the time, even though I am trying to take every moment in and just enjoy it. But I expect a lot out of myself and I put in a lot of work. At first when I didn’t see those shots go in I was kind of discouraged, but everyday I strive to be one percent better and just to continue to build because it’s not all going to come back in a year. The past few weeks I’ve definitely been seeing those shots go in and i’ve gained confidence and I’m starting to get myself back and get my groove back.”
