#### **Redshirt Junior Quarterback KJ Jefferson**

*On last season's game against Alabama...*

"It gave me a lot of confidence. The preparation leading up to that week of the game, I met with my coaches to get the game plan and get some confidence for when it did come down to game time. When we got to the game, my teammates being able to make plays for me made me want to let them make plays even more throughout the game."

*On offseason improvements...*

"I feel like I improved on decision making and being disciplined with the ball, just taking care of the ball and trying to put my teammates in the best position to win. Just leaning forward and moving forward to be more consistent and be even more vocal as a leader."

*On the giant leap in the 2021 season, and how to maintain that in 2022...*

"We all just were bought in, locked in. We all just were extremely bought into the process and just believe in each other and come in with confidence and work hard every single day. To just come in and love one another and build that bond, not just on a football standpoint, but also on a personal level."

*On Offensive Coordinator Kendal Briles and his development of quarterbacks...*

"He has played a tremendous role. Being able to instill the confidence in me to run this offense and run it to perfection, to gain the highest amount of production from this offense, and continually take this offense and team to the next level."
