

2022 SEC Football Media Days Georgia Player Quotes Wednesday, July 20

Redshirt Sophomore Offensive Linesman Sedrick Van Pran

On entering the 2022 season as the National Champions...

"I think you have to be competitive. That's definitely something that we preach to our team. Making sure that we're competitive every day, we compete with each other, and making each other better. The more competitive you are, focusing on every rep, every game, every week, you have no choice but to kind of put it behind you and get better."

On his teammates ...

"I like how connected this team is. If I'm being honest, connection was definitely something that we preached last year, but I think this year guys spend time outside of football together: fellowship, guys going to church together, cookouts together, and those types of things. I think those are the things that are the minute details that help you win in the long run."

On his teammate, Ladd McConkey...

"I can't say anything that I think people don't know about Ladd. He is extremely hard working and a great guy. I think the best thing about Ladd's process is through everything he went through, he was really humble about it, never complains. Never said, 'I should be getting more reps.' He puts his head down and works. When he got his chance, he thrived. I'll say this to him personally. That's somebody I look up to and try to model myself after."
